

When you open caNanoLab, the public home page appears. From that page, any user can search publicly-available protocols, samples, and publications in the caNanoLab database.

The following table lists what you can do from caNanoLab's public home page.

I want to...	How do I...
Perform a search across all types of items	<p>Enter search criteria in the Search box to perform a keyword search across protocols, samples, and publications. The system returns only publicly-accessible items if you are not logged in.</p>  <p>For details, refer to <a href="#">Performing a caNanoLab Keyword Search</a>.</p>
Access online help	Click <b>Help</b> or <b>Glossary</b> on any caNanoLab page, or in the <b>Features</b> panel, click <b>FAQ</b> or <b>Online Help</b> .
Open related web sites	<p>Click <b>NCI</b> or <b>External</b> web sites for related information.</p> <div>  <p><b>External Site Disclaimer</b></p> <p>NIH is not responsible for the availability or content of External sites.</p> </div>

Browse public data	<p>In the Browse caNanoLab panel, click <b>Search Protocols</b>, <b>Search Samples</b>, or <b>Search Publications</b>.</p>  <p>For details, refer to <a href="#">Managing Protocols in caNanoLab</a>, <a href="#">Managing Samples in caNanoLab</a>, and <a href="#">Managing Publications in caNanoLab</a>.</p>
Log into caNanoLab	Log in from User Actions. To request a login account, refer to <a href="#">Registering for a caNanoLab Login Account</a> .
Ask a question	Review the <b>How To</b> questions, the <b>Features</b> , <b>FAQ</b> link, or contact <a href="mailto:caNanoLab-Support@ISB-CGC.org">caNanoLab-Support@ISB-CGC.org</a> .
Download caNanoLab	<p>Under What's New, click <b>download</b>. Technical information is included in the Release Notes.</p> 
Review changes to caNanoLab	<p>Under <b>Keeping up with caNanoLab</b>, click <b>What's New with caNanoLab</b>.</p>
