

Resetting Your Password

To reset your caNanoLab password:

1. On the [home page](#), locate the **User Actions** panel.

USER ACTIONS

No account is required to browse publicly available data.

LOGIN ID

PASSWORD

[Login](#)

[Forgot Password?](#)

2. Click **Forgot Password**.

USER ACTIONS

Enter your email to receive a password reset link.

EMAIL

Change Password

Password requirements:

- X Must contain at least one UPPERCASE character.
- X Must contain at least one LOWERCASE character.
- X Must contain at least one digit.
- X Must contain at least one special character.
- X Must be between 15 and 32 characters.
- X Passwords must match.

New Password

Confirm Password

[Cancel](#) [Change Password](#)

5. Specify your new password and confirm it. (The new password cannot be the same as your previous six passwords. The Change Password page provides additional guidelines.)
6. Click **Change Password**. The system sends an email confirming the password change.

You can now log in as described in [Logging Into caNanoLab](#).
