Menu Options

The following table lists and describes each caNanoLab menu.

Menu Options	Description
Home	Returns to the home page.
Workflow	Presents a workflow graphic with active links to access caNanoLab functions. For details, refer to Using the Workflow to Get Started
Protocols	Search for existing protocols, create a new protocol, and submit a protocol for review for public access. For details, refer to Managing Protocols in caNanoLab.
Samples	Search for existing samples, create a new sample, and submit a sample for review for public access, as described in Managing Samples in caNanoLab. When you add a sample, the following options appear in the Navigation Tree: NAVIGATION TREE GENERAL INFO COMPOSITION CHARACTERIZATION PUBLICATION • Composition to add annotations and publications to the sample. For details, refer to Managing Sample Composition Annotations. • Characterization to review or ascribe characterizations to samples. For details, refer to Managing Sample Characterizations. • Publication to add publication to a sample. For details, refer to Adding Publications to a Sample.
Publications	Search for sample publications, create a new publication, or submit a publication for review for public access. For details, refer to Managing Publications in caNanoLab.
Groups	Create and manage collaboration groups which allow researchers to share data among members of the group. • *Curators* can manage all collaboration groups and view a list of samples assigned to each group. • If you do not have the curator role, you can manage only your own collaboration groups. For details, refer to Managing Collaboration Groups.
Curation	*Curator only*: Review items pending public release and generate sample data metrics in a batch. For details, refer to Managing Data Curation.
Results	*Curator only*: Appears after you perform a batch process. For details, refer to Reviewing Batch Results.
My Workspace	Review the samples, protocols, and publications that you saved or are associated with your log in. For details, refer to Using My Workspace.
My Favorites	Review the samples, protocols, and publications that you bookmarked for easy access. For details, refer to Using My Favorites.
Admin	*Admin only*: Add and edit users. For details, refer to Managing caNanoLab User Accounts.
Login /Logout	Login or out of caNanoLab.
