

# Searching for Samples by Publication

To search for publications associated with one or more samples

1. Click **Publications**. The Manage Publications page appears.
2. Click **Search for Samples by Publication**.

## Leaving all search criteria blank

There are no required fields when you specify search criteria. If you leave all the fields blank, all items are returned.

3. Enter the ID number.
4. From Sample Search by Publications, specify the **Type** of sample ID, PubMed or DOI.
5. Click **Search**. The Sample by Publication Search Results page appears. For details, refer to the [Sample by Publication Search Results](#).
