Activities completed this month

- Codabench (Open Source Team):
 - TACTIC: <https://codabench-test.lri.fr/competitions/91/>
 - DGM: <https://codabench-test.lri.fr/competitions/92/>
 - GPU submissions work
 - I have 2 challenges launched preliminarily on codabench
- Federated learning challenge:
 - Ran the final two participant submissions and reported the results
- Image Comparator App:
 - Finished adding authentication to the app. Users can sign up and be signed in, log in and log out
 - Adding task management UI and functionality

Planned for next month

- Challenges:
 - DGM:
 - Leaderboard to be managed by google docs and an iframe
 - Then we will scp the images to their computers for analysis.
 - Finish the scoring program
 - TACTIC:
 - Need to review exactly how to make initial phase where users request data
 - Need to finish scoring program for general submissions
 - Starting kit with instructions also need to be finished
- MIDRC:
 - New Docker submission challenge planned for 2023
