

Receiving Updates

1. Open a supported browser:
 - Chrome
 - Firefox
2. Navigate to the following portal:

<https://modac.cancer.gov/>

The home page appears.

3. Under **Sign up for email updates**, enter your email address.
4. Click **Sign up**. The response from the system depends on various factors:
 - If the specified email address is not yet associated with a MoDaC user account, the system displays a message inviting you to create an account, as described in [Registering Your User Account](#).
 - If the specified email address is already associated with a MoDaC user account, the system sends an email notification to that address when MoDaC has new features.

You can unsubscribe at any time by [Contacting Us](#).
