Goals

Discussion items

Time	Item	Who	Notes
	Spring 5		On Prod
	ehcache		- on Dev, report written - merge request entered
	jQuery 1.1		- on upper tiers only, suggest removal - Replied to email and told them to remove from Stage - Now getting reports about Spring and JQuery on Prod, asked for more info. Will try rescan
	ICD10 to MedDRA mapping		- Coming as separate file - Metadata file being structured - Mapping data provided by third party in Excel format - Going to try loading on Dev - after modifying Perl script - How to identify schema? Need to check for official naming in DB ☐ Tracy to check naming method and send email
	New Value Set		Informed there will be a new value set in this NCIt
	System migration		- Stage 2- - Ready to Go - Chao concerned that Apache redirection might not work - needs testing during data deployments - Prod - question about Coretto on Stage vs Oracle on Prod - Consensus is that it should be safe. - DataQA after Prod - database on machine - migrate first? - Test performance of old loaders vs new database. - Other apps follow DB - determine if needs to be co-located - Does script need to be updated?
	End of Life		- URI Resolver - request in to go down on Stage - RMI - New data test application being written for automated data deployments - Will need to update deployment script by Systems
	Corretto		- On Stage 2 - Will be part of Prod VM once Stage is complete
	SumoLogic to DataDog		- Migration scheduled to begin in October and end in March 2024 - Queries used to generate current reports turned over to migration team.
