

Sharing Data

To share data from DME:

1. Make sure the recipient has permission to access the data, as described in [Managing Permissions](#).
2. Copy the path as described in one of the following pages:
 - [Sharing a URL](#), such as https://hpcdmeweb.nci.nih.gov/collection?action=view&path=/FNL_SF_Archive/PI_Lab_JaneDoe/Project1/Flowcell1&source=browse&init. The recipient can use that URL in any Internet browser.
 - [Sharing a DME Path](#), such as [/FNL_SF_Archive/PI_Lab_JaneDoe/Project1/Flowcell1](#). The recipient can use that path in the DME Browse page, as described in [Browsing for Data via the GUI](#).
3. Send that path to the recipient.

If you are an administrator, also refer to [Using DME as an Administrator](#).
