

Searching for Data

Any user can access publicly available data via search, on a desktop or mobile device.

1. Open a supported browser:
 - Chrome
 - Firefox
 - Safari (mobile only)
2. Navigate to the following portal:

<http://modac.cancer.gov/>

The home page appears.

3. Perform one or more of the following options:

To do this ...	Do this ...
To view all search results	On desktop: Click the search icon () or click Search in the header. On mobile: Tap the search icon and then tap Submit. The Search page appears with the first page of all results.
To search by keyword	In the Search MoDaC field, type a keyword. Click the search icon. The Search page appears with the first page of all matching results.

For details, refer to [Using Search Results](#).

4. On a mobile device, to view the search filters, tap **Back to Search Filters**.
5. To narrow results in the Search page: In the **Filters** panel, select one or more filters.
 - For some examples:
 - To display only the models in which you can generate predictions, select **Yes** under **Is Model Deployed**.
 - To display all datasets that are not reference datasets, select **No** under **Is Reference Dataset**.

For details on these filter categories, refer to [Generating Predictions](#).

- If a category has a long list of filters:

To do this ...	Do this ...
View the full list	Click # More Items .
View less of the list	Click Less .
Search for filters within a category	Click the search icon next to the category name. In the search box that appears, start typing.

- You can perform the following actions in the Filters panel:

To do this ...	Do this ...
Collapse all search filters	Click the Collapse All Filters icon ()
Expand all search filters	Click the Expand All Filters icon ()
Clear all search filters	Click the Clear Filters icon ()

If you log in on a desktop device, you can also access data you have uploaded and data associated with an access group to which you belong. Additional options may also be available to you after login. For instructions, refer to [Logging In](#).
