

# LexEVS 6.1 Proposal - Other - O.4

Part of document: [LexEVS 6.1 Proposed Scope Items](#)

## Enhancement

Clean up GUI - functionality should match documentation and presentation

- Please provide examples and/or a list of items to fix?
1. The Metathesaurus and UMLS loaders in the gui request the paths of a manifest and preferences file, but these are not used during the load.
  2. The OBO loader in gui requests the path of a preference file but this is not used during the load.

## Tasks to Complete
