

Restricting Who Can View and Edit Pages

You can restrict viewing or editing of a page if the link is visible to you.

1. Identify the users to which you want to restrict viewing and editing.
2. Verify that those users are in an LDAP group that can view the wiki space. If you are not able to find the appropriate LDAP group, contact NCIAppSupport@nih.gov.
3. Navigate to the page for which you want to set restrictions.
4. Apply restrictions as described in the following Atlassian help page:
