

SupplyNonOwlFileUri Snippet

Java Code Snippet

```
// Find the registered extension handling this type of load
LexBIGService lbs = new LexBIGServiceImpl();
LexBIGServiceManager lbsm = lbs.getServiceManager(null);
HL7_Loader loader = (HL7_Loader)lbsm.getLoader (org.LexGrid.LexBIG.Impl.loaders .HL7LoaderImpl.name);

// updated to include manifest
loader.setCodingSchemeManifestURI(manifest);

// updated to include loader preferences
loader.setLoaderPreferences(loaderPrefs);
loader.load(dbPath, stopOnError, true);
```
