

Mapping CTS2 API to LexEVS 6.0 API

Core Component

Core Functional Area

Implementation	CTS 2 Service or Interface Specification	LexEVS Module or Package	LexEVS Service or Interface	Remarks
Class	BaseService	org.lexevs.cts2	BaseService	—

Read Functional Area

Implementation	CTS 2 Service or Interface Specification	LexEVS Module or Package	LexEVS Service or Interface	Remarks
Class	BaseReadService	org.lexevs.cts2	BaseService	—

Query Functional Area

Implementation	CTS 2 Service or Interface Specification	LexEVS Module or Package	LexEVS Service or Interface	Remarks
Class	BaseQueryService	org.LexGrid.LexBIG. LexBIGService	CodedNodeSet, CodedNodeGraph	—
Operation	restrict	org.LexGrid.LexBIG. LexBIGService	restrictTo<element> method calls	—
Operation	union	org.LexGrid.LexBIG. LexBIGService	union	—
Operation	intersect	org.LexGrid.LexBIG. LexBIGService	intersect	—
Operation	difference	org.LexGrid.LexBIG. LexBIGService	CodedNodeSet.difference	—
Operation	count	org.LexGrid.LexBIG. LexBIGService	size of the list results of query	—

Import and Export Functional Area

Implementation	CTS 2 Service or Interface Specification	LexEVS Module or Package	LexEVS Service or Interface	Remarks
Class	ImportExportBase	org.lexevs.admin.load	?	—
Operation	clearLog	org.lexevs.admin.load	?	—
Operation	getLog	org.lexevs.admin.load	?	—
Operation	BaseExportService	org.lexevs.admin.load	?	—
Operation	getStatus	org.lexevs.admin.load	?	—
Operation	export	org.lexevs.admin.load	?	—
Operation	BaseImportService	org.lexevs.admin.load	?	—
Operation	getStatus	org.lexevs.admin.load	?	—
Operation	import	org.lexevs.admin.load	?	—
Operation	validate	org.lexevs.admin.load	?	—

Update Functional Area

Implementation	CTS 2 Service or Interface Specification	LexEVS Module or Package	LexEVS Service or Interface	Remarks
Class	UpdateService	Not Available	Not Available	—
Operation	validateChangeSet	Not Available	Not Available	—
Operation	putChangeSet	Not Available	Not Available	—
Operation	listChanges	Not Available	Not Available	—

History Functional Area

Implementation	CTS 2 Service or Interface Specification	LexEVS Module or Package	LexEVS Service or Interface	Remarks
Class	BaseHistoryService	?	?	—
Operation	readChangeSet	?	?	—

Operation	resolve	?	?	–
-----------	---------	---	---	---

Maintenance Functional Area

Implementation	CTS 2 Service or Interface Specification	LexEVS Module or Package	LexEVS Service or Interface	Remarks
Class	BaseMaintenanceService	org.lexevs.author	?	Instead of a BaseMaintenanceService super class, LexEVS inlines these methods in the various authoring interfaces
Operation	createChangeSet	org.lexevs.author	?	–
Operation	readIterableChangeSet	org.lexevs.author	?	–
Operation	readChangeSet	org.lexevs.author	?	–
Operation	updateChangeSetMetadata	org.lexevs.author	?	–
Operation	commitChangeSet	org.lexevs.author	?	–
Operation	rollbackChangeSet	org.lexevs.author	?	–
Operation	updateChangeableMetadata	org.lexevs.author	?	–
Operation	deleteChangeable	org.lexevs.author	?	–
Operation	newProperty	org.lexevs.author	?	–
Operation	newResourceTarget	org.lexevs.author	?	–
Operation	newLiteralTarget	org.lexevs.author	?	–
Operation	newEntityReferenceTarget	org.lexevs.author	?	–

Temporal Functional Area

Implementation	CTS 2 Service or Interface Specification	LexEVS Module or Package	LexEVS Service or Interface	Remarks
----------------	--	--------------------------	-----------------------------	---------

None?

Specialized Functional Area

Implementation	CTS 2 Service or Interface Specification	LexEVS Module or Package	LexEVS Service or Interface	Remarks
----------------	--	--------------------------	-----------------------------	---------

None?

Services

Code System Catalog and Version Services

Implementation	CTS 2 Service or Interface Specification	LexEVS Module or Package	LexEVS Service or Interface	Remarks
Service Area	CodeSystemCatalogServices	Not Available	Not Available	The idea of a CodeSystem is not present in LexEVS. A CodeSystemCatalogEntry is an abstract notion of a LexEVS CodingScheme. It does not contain version information and is strictly metadata.
Class	CodeSystemCatalogReadService	Not Available	Not Available	–
Operation	exists	Not Available	Not Available	–
Operation	read	Not Available	Not Available	–
Class	CodeSystemCatalogQueryService	Not Available	Not Available	–
Operation	resolve	Not Available	Not Available	–
Operation	resolveAsList	Not Available	Not Available	–
Class	CodeSystemCatalogHistoryService	Not Available	Not Available	–
Operation	getEarliestChangeFor	Not Available	Not Available	–
Operation	getLastChangeFor	Not Available	Not Available	–
Operation	getChangeHistoryFor	Not Available	Not Available	–
Class	CodeSystemCatalogMaintenanceService	Not Available	Not Available	–
Operation	createCodeSystem	Not Available	Not Available	–
Operation	updateCodeSystem	Not Available	Not Available	–

Service Area	CodeSystemVersionCatalogServices	org.lexevs.cts2.query	CodeSystemQueryOperation	–
Class	CodeSystemVersionCatalogReadService	org.lexevs.cts2.query	CodeSystemQueryOperation	–
Operation	exists	org.lexevs.cts2.query	listCodeSystems	–
Operation	read	org.lexevs.cts2.query	listCodeSystems	–
Operation	existsCodeSystemVersionForCodeSystem	org.lexevs.cts2.query	getCodeSystemDetails	–
Operation	getCodeSystemVersionForCodeSystem	org.lexevs.cts2.query	getCodeSystemDetails	–
Operation	existsVersionId	org.lexevs.cts2.query	getCodeSystemDetails	–
Operation	getCodeSystemByVersionId	org.lexevs.cts2.query	listCodeSystems	–
Class	CodeSystemVersionCatalogQueryService	org.lexevs.cts2.query	CodeSystemQueryOperation	–
Operation	restrictToEntities	org.lexevs.cts2.query	listCodeSystemConcepts	–
Operation	resolve	org.lexevs.cts2.query	listCodeSystemConcepts.resolve	–
Operation	resolveAsList	org.lexevs.cts2.query	listCodeSystemConcepts.resolveAsList	–
Class	CodeSystemVersionCatalogHistoryService	Not Available	Not Available	–
Operation	getEarliestChangeFor	Not Available	Not Available	–
Operation	getLastChangeFor	Not Available	Not Available	–
Operation	getChangeHistoryFor	Not Available	Not Available	–
Class	CodeSystemVersionCatalogMaintenanceService	org.lexevs.cts2.author	CodeSystemAuthoringOperation	–
Operation	createCodeSystemVersion	org.lexevs.cts2.author	createCodeSystem	–
Operation	updateCodeSystemVersion	org.lexevs.cts2.author	addCodeSystemProperties	–

Entity Description Services

Implementation	CTS 2 Service or Interface Specification	LexEVS Module or Package	LexEVS Service or Interface	Remarks
Class	EntityDescriptionReadService	org.lexevs.cts2.query	ConceptDomainQueryOperation	–
Operation	availableDescriptions	org.lexevs.cts2.query	getConceptDomainEntitisWithName	–
Operation	exists	org.lexevs.cts2.query	isEntityInConceptDomain	–
Operation	existsInCodeSystem	org.lexevs.cts2.query	isEntityInConceptDomain	–
Operation	read	org.lexevs.cts2.query	listAllConceptDomainEntities	–
Operation	readByCodeSystem	org.lexevs.cts2.query	listAllConceptDomainEntities	–
Operation	readEntityDescriptions	org.lexevs.cts2.query	getConceptDomainEntitisWithName	–
Class	EntityDescriptionQueryService	org.lexevs.cts2.query	CodeSystemQueryOperation	–
Operation	restrictToCodeSystem	org.lexevs.cts2.query	listCodeSystemConcepts	–
Operation	restrictToCodeSystemVersion	org.lexevs.cts2.query	listCodeSystemConcepts	–

Class	ConceptDomainBindingMaintenanceService	org.lexevs.cts2.author	ConceptDomainAuthoringOperation	–

Operation	createConceptDomainBinding	org.lexevs.cts2.author	createConceptDomain	–
Operation	updateConceptDomainBinding	org.lexevs.cts2.author	updateConceptDomainProperty	–

Map Services

Implementation	CTS 2 Service or Interface Specification	LexEVS Module or Package	LexEVS Service or Interface	Remarks
Service Area	MapCatalogServices	Not Available	Not Available	The idea of a MapCatalog is not present in LexEVS. A MapCatalogEntry is an abstract notion of a Map. It does not contain version information and is strictly metadata.
Class	MapCatalogReadService	Not Available	Not Available	–
Operation	exists	Not Available	Not Available	–
Operation	read	Not Available	Not Available	–
Class	MapCatalogQueryService	Not Available	Not Available	–
Operation	restrictByCodeSystem	Not Available	Not Available	–
Operation	restrictByValueSet	Not Available	Not Available	–
Operation	resolve	Not Available	Not Available	–
Operation	resolveAsList	Not Available	Not Available	–
Class	MapCatalogHistoryService	Not Available	Not Available	–
Operation	getChangeHistoryFor	Not Available	Not Available	–
Operation	getEarliestChangeFor	Not Available	Not Available	–
Operation	getLatestChangeFor	Not Available	Not Available	–
Class	MapCatalogMaintenanceService	Not Available	Not Available	–
Operation	createMapCatalogEntry	Not Available	Not Available	–
Operation	updateMap	Not Available	Not Available	–
Service Area	MapVersionServices	–	–	In LexEVS, A MapVersion is represented by a CodeSystem. For all MapVersion Read/Maintenance/Query functionality, see CTS2 CodeSystemVersion.
Class	MapVersionReadService	org.lexevs.cts2.query	–	–
Operation	exists	org.lexevs.cts2.query	–	–
Operation	read	org.lexevs.cts2.query	–	–
Operation	existsMapVersionForMap	org.lexevs.cts2.query	–	–
Operation	readMapVersionForMap	org.lexevs.cts2.query	–	–
Operation	entryExists	org.lexevs.cts2.query	–	–
Operation	readEntry	org.lexevs.cts2.query	–	–
Class	MapVersionQueryService	org.lexevs.cts2.query	CodeSystemQueryOperation	–
Operation	restrictToCodeSystems	org.lexevs.cts2.query	–	–
Operation	restrictToValueSets	org.lexevs.cts2.query	–	–
Operation	restrictToEntities	org.lexevs.cts2.query	–	–
Operation	resolve	org.lexevs.cts2.query	–	–
Operation	resolveAsList	org.lexevs.cts2.query	listCodeSystems	–

Operation	mapVersionEntities	org.LexGrid.LexBIG.CodedNodeSet	–	All normal LexEVS CodedNodeSet Operations are valid for a Mapping CodingScheme in LexEVS
Operation	mapVersionEntityReferences	org.LexGrid.LexBIG.CodedNodeSet	–	All normal LexEVS CodedNodeSet Operations are valid for a Mapping CodingScheme in LexEVS
Class	MapVersionHistoryService	Not Available	Not Available	–
Operation	getChangeHistoryFor	Not Available	Not Available	–
Operation	getEarliestChangeFor	Not Available	Not Available	–
Operation	getLatestChangeFor	Not Available	Not Available	–
Class	MapVersionMaintenanceService	org.lexevs.cts2.query.author	CodeSystemAuthoringOperation	–
Operation	createMapVersion	org.lexevs.cts2.query.author	createCodeSystem	–
Operation	updateMapVersion	org.lexevs.cts2.query.author	updateCodeSystem	–
Operation	createMapEntry	org.lexevs.cts2.query.author	AssociationAuthoringOperation – createAssociation	–
Service Area	MapEntryServices	–	–	MapEntries are represented in LexEVS through Associations in the org.LexGrid.LexBIG.CodedNodeGraph interface. Also see 'org.LexGrid.LexBIG.Extension.Generic.MappingExtension' for more MapEntry Query functionality. Additionally, MapEntries can be represented through an org.LexGrid.LexBIG.CodedNodeSet.
Class	MapEntryReadService	see MapEntryServices remark	–	–
Operation	exists	?	?	–
Operation	read	?	?	–
Class	MapEntryQueryService	see MapEntryServices remark	–	–
