Init4pm19 - Support for use of Semantic Web Technologies in caBIG

Pre Interview:

Item	Information/Response
Date:	12/18/2009
Requirement # unique id *<SemCon Ops Initiative>.* *<analysts initials><requirement number>* e.g. Init1dbw1 (eventually linked to Use Cases)	Init4pm19
Originator/Customer's Name:	Joshua Phillips - forum post
Originator/Customer's Company:	SemanticBits
Summary of requirement pre-interview, by Reviewer:	Joshua Phillips is working on a use case/requirements document related to the use of semantic web technologies in the caBIG semantic infrastructure. These technologies include RDF, RDFS, OWL, SPARQL, etc. These requirements primarily effect Software Architects and Software Engineers who will be interacting with these technologies.
Recommended Next Step Enter one: Follow-up interview, Observe, Use Case Template (text), Use Case Model (formalized/UML diagram), Group Discussion, Prototype, Waiting Room	Observe
