

Searching for a Term 1.0

1. Click the **Lexicons** tab.

2. At the bottom of the Lexicon Terms panel, click
The Lexicon Search window appears.

3. In the list in the top middle of the page, select at least one lexicon where you believe the term you are searching for is located. Click and hold the Shift or Ctrl key to select multiple lexicons.
4. In the list at top left of the page, enter the term you want to search for. Click **Whole word** if you are entering the whole word and want to restrict your search to it. You can also enter only part of the term, such as "Tum" for "Tumor".

5. Click
All lexicon entries containing the word you entered appear in the search results.
6. Select a term from the search results.
7. Click **OK**.
